

BAPESWAP

ABSTRACT

WHAT IS DEFI?

Decentralized finance is a blockchain-based financial application ecosystem that operates without central authority or financial institution, which can facilitate users in any kind of transactions, as well as an economic growth.

DEFI ADVANTAGES :

- Easy access for everyone
- Save in terms of time compared to banking
- Flexible, secure and fast
- Can be done anywhere in the world

BAPE5WAP

BAPESWAP

A future decentralization platform inside the BSC network that we have prepared to meet market needs with more complete features.

VISION AND MISSION

Building the economic facilities by making defi as an easier alternative for transactions, as well as building a mutually beneficial system for everyone by optimizing a system that are flexible, secure, and has strong fundamentals.

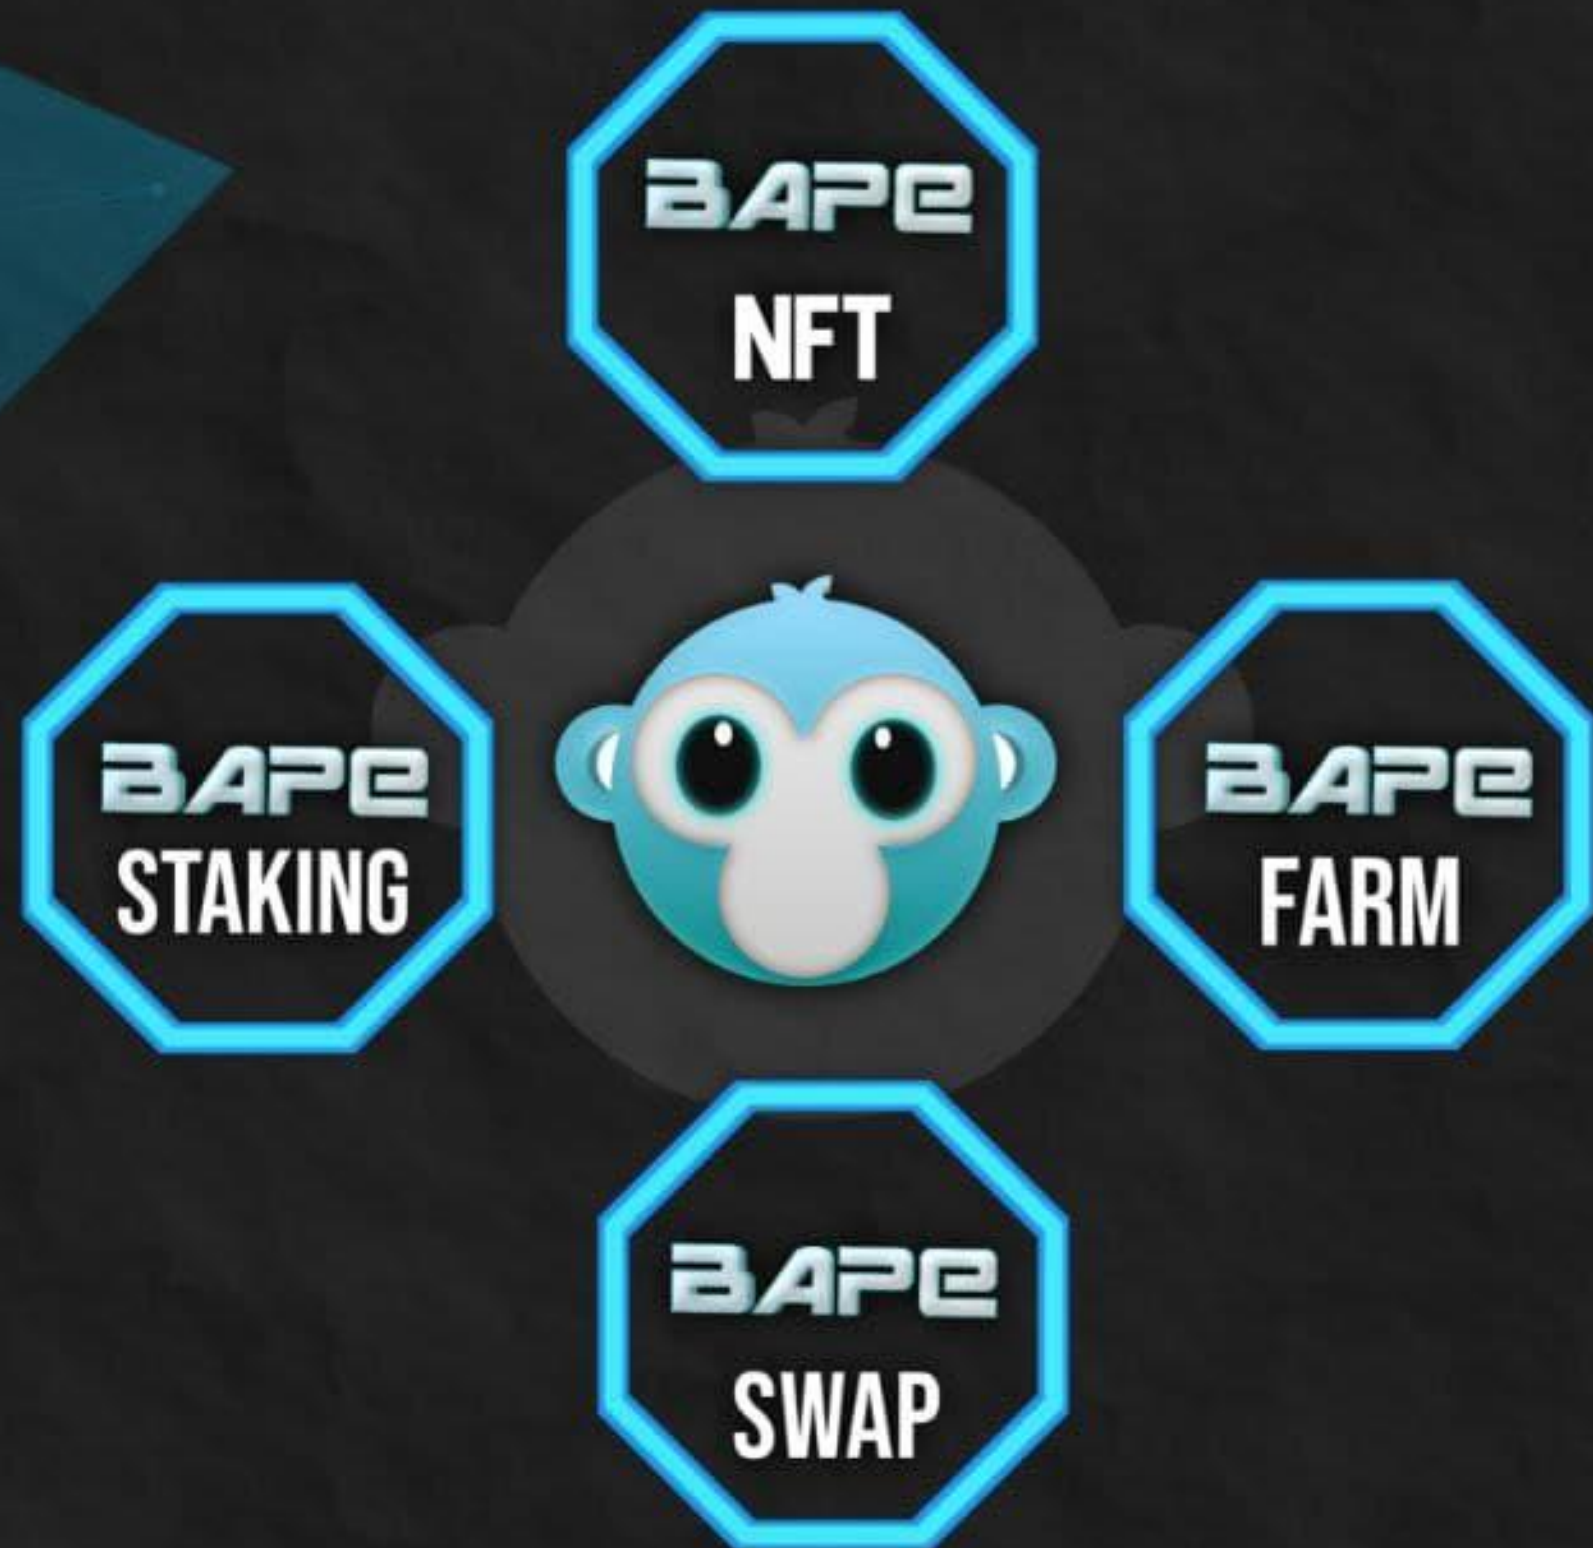

BAPE SWAP

DEX : Fast and efficient exchange

STAKING : Buy, hold and earn

NFT : Unlimited collections of NFT

FARM : The longer you hold, the
more you'll get

BAPESWAP

- **DEX**

Decentralized cryptocurrency exchange which is not rely on third party services in every transaction, can be carried out directly between users in term of efficient and secure peer to peer system.

- **NFT**

Unlimited NFT collections can be gained and collected as traded assets, as well as the market supply for those assets simplify the NFT holders for buying and selling transactions.

- **FARM**

Mining liquidity to generate rewards with asset ownership. Hold the crypto assets for a certain period of time and get maximum profit.

BAPESWAP

▪ STAKING

Nowadays, trading and investing are not the only way to generate passive income. Another thing that can be done is staking. Staking is an actively participating process in validating transactions on a blockchain. Buying and holding tokens as a long term investment to make profit.
